To Our Friends in the Country. Incidents frequently occur in this or adjacent counties, an account of which, if promptly reported to us, would add interest to our columns. We therefore ask our friends in the country to drop us a line, whenever anything unusual occurs in their neighborhood. It is not necessary that a long article, ready for the press, should be written. All we ask is the "points"-the date, names of the parties and the nature of the occurence, correctly stated.

Hon, A. M. Waddell

Hon. A. M. Waddell having been in attendance at the Commencement of the Wesleyan Female College at Murfreesboro, we copy from the correspondence of the Norfolk Virginian the following in regard to his addresses on the 15th inst:

At 11 A. M., in the Methodis Church, the annual address before the Weslevan Female Csllege was deliver special train over the Carolina Central ed by Hon. A. M. Waddell, of Wileloquent speaker. He commenced by alluding to the magnetic needle, that centuries threaded the wayward seas reports that the survey work has been in safety. There was another influence. equally magnetic and imperious, which led the grand old gardener of Eden compliant slave to his beauteous queen. In obedience to this same influence th. speaker had come at the call of the

ladies to address them. Mr. Waddell congratulated his au ditors on the happy prospect of a re stored national fraternity, in the revival of the memories of one hundred years ago as expressed in the late co tennial observances at Concord an Charlotte. There was nothing like these appeals to the traditions of common patriotism to lead us into the old paths of peace and brotht-rhood i which our fathers walked hand in hand. All this was by way of intro

duction.

The subject of the address was America before Columbus." The opic was suggested by a remarkable passage in Humboldt's "Cosmos," and in pursuing the investigation thus in duced the speaker had laid under contribution every source of information, and now gave, condensed in brief, the study. Columbus was, comparatively, a modern navigator. Before him, 500 years, and even anterior to th discoveries of Eric the Red on the Florida had been not only visited but settled by the intelligen (and intrepid Irish race. This settlement was in t erly recognized, furnish full proof

The entlying islands, which Christopher Columbus found by acei dent, were the threshold of a great Continent which had been found and terday of a very destructive fire at settled ages before, and that, too, by Newkirk's Bridge, Franklin township, Europeans. Hence it was that Si Sampson county. The store of Mr. Waster Raleigh, when he ground his Chas. Howe, who is well known in this Roanoke Island, found the Tuscaroras city, was discovered on fire between 1 talking Gaelic, and with blue eyes, and 2 o'clock on the morning of the fair faces and auburn hair.
